<b>Notes</b>	Address changed to 584 Phoenix Drive. 0 jobs before 0 jobs retained. The PILOT provides for a total exemption for those portions of the buildings that are occupied by users that would have been exempt from real property taxes under §420-A of the Real Property Tax Law. Certain GLDC Building projects provide for a total RPTL exemption for those portions of the bldgs. that are occupied by users that would be exempt from RPT under §420-A of the NYS Real Property Tax Law. Whenever non §420-A eligible tenants occupy the space within the bldg, they are subject to the OCIDA PILOT on the building. Due to occasional changes in tenancy from one year to the next, or even throughout the course of the year, this can affect the percentage of the assessment value of the bldg/ that would be normally taxable.

<b>Notes</b>	3001-22-McCraith2022 is related. In a PILOT, all RPT are considered EXEMPT. Payments made IN LIEU of RPT can include portions of the facility that are receiving no reduction in the amount due to the taxing muni because the PILOT formula only applies to the increase in taxes resulting from the project. This is case for the '22 report. The reason the 21 RPTE and PILOT numbers are lower is because the 21 report only reported on the portion of the facility that received a reduction from what RPT would have been. It didn't include the portion of the facility that was EXEMPT BUT PAYING 100% of what RPT would have been. In order to conform with all other IDA projects reporting RPTE/PILOT payments, the 22 report reported on ALL portions of the facility that were EXEMPT, even portions receiving no reduction from what RPT would have been. This is why the net PILOT benefit is unchanged, despite the variance in RPTE/PILOT amounts.
